SITECORE®

Connectors for Sitecore XP, Sitecore XM Cloud, and Sitecore Content Hub

GPI's Translation Services Connector for Sitecore enables users of Sitecore-based websites to launch and manage multi-language websites. The Translation Services Connector streamlines content exports and reimports allowing for the initiation of web content translation workflows with a single click. Users will gain access to an array of reports to track and manage global translation web projects through GPI's Translation Portal.

BENEFITS:

High Quality Website Translation

Utilizing native speaking translation and copywriting professionals to create multilingual content.

Easy Integration

Enterprise-grade connector plugins are easily installed and uninstalled with a few clicks.

Manage Multiple Language Sites

Manage any number of language sites with a few clicks.

Workflow (Import/Export)

Simplifies import/export process for content translation workflows.

Total Cost of Ownership

GPI Connectors are installed, tested, and supported for FREE.

Manage Web Content Translation Quotes and Projects

Dashboard to view a range of business intelligence including budgets, cost savings, status reports, schedules, project tasks, quotes, and projects.

ISO Certified Professional Code and Security

GPI holds ISO 17100-Translation Services, ISO 27001-Information Security and EC 27017:2015 Information Security Cloud certifications.

Human and/or AI-Powered Teams

Both Human Translation teams and AI-powered Translation plus post-editing workflows available.

Support

GPI provides 24/7 support to customers using our Translation Services Connectors.
